

CONTACT REPORT:

PROJECT: CADROIT

TIME AND DATE: 4 May 54 1745-2100

PRESENT: CARBOHYDRATE and []

PLACE : CARBOHYDRATE's residence

1- CARBOHYDRATE reported concerning the most recent developments in the Heil case (the offer by the Soviets to exchange any non-political prisoner for DM 100,000) (See attached Memorandum)

2. CARBOHYDRATE submitted a photostat of a recent letter from CACARAMA to his mother and related further detail concerning this case (See attached Memorandum). C. has been requested to prepare a complete report concerning the matter and he promised to have the first part of it by the next meeting.

3. CARBOHYDRATE submitted two reports (one letter) concerning the Vopo and espionage activities among former Ic people. (These are being forwarded by attached Memorandum).

4. In a rather detailed oral report concerning the events surrounding the "May Day" party held by CADROIT on 30 April, CARBOHYDRATE indicated that during such events, it is wise to have the Security Officer on duty (without drinking) to insure that no one does anything foolish. The party started off quietly enough with Henard calling in the staff employees in groups of three or four to a small room where he had set up a "bar" and his large radio receiver. He offered each person a special drink and then requested one of the persons to sing a song ("Der Mai ist gekommen") and after all had finished singing ~~xxxxx~~ chori, Henard turned on his radio and played back a tape recording of the singing. Then the next group would be invited in. After this procedure was over, each person received a bottle of wine and beer was available at cost. The party continued (without Henard) until about 0300 hours 1 May. It was necessary for CARBOHYDRATE with the assistance of some other individuals to drive some of the employees (drivers, and one secretary) home. One employee inadvertently dialed 01 (Unfallkommando) instead of the taxi service and it is possible that a minor repercussion may occur as a result of the official report which had to be submitted concerning the "false alarm."

5. Discussion concerning the Security Check lists continued, but due to the amount of detailed information reported concerning paras 1 and 2 above, the task was not completed as had been planned. Barring unforeseen activities, it is believed that this discussion will be completed on Friday (7 May 54).

NEXT MEETING: 7 May 54
